

# PVRI 2025 Rio Report

Embracing Heterogeneity

28 January - 1 February 2025

# A word from our CEO

Dear friends

I'd like to thank all those who attended PVRI 2025 Rio. Over four days, the event explored the complexity of PH through a programme that spanned basic, translational, and clinical research. The conference facilitated our usual exciting exchange of knowledge between experts from 25 countries spanning five continents.

This year's meeting also prioritised the growth of the next generation of researchers and physicians. Early-career colleagues were given a platform to present in every session, and the inaugural Career Catalyst Luncheon provided a unique networking opportunity with senior scientists from around the world. Additionally, another wonderful Women in PH Luncheon continued to foster community and address the unique challenges faced by women in the field.

The vibrant atmosphere throughout the conference inspired new collaborations and innovative research directions. The momentum generated promises to drive advancements in improving the lives of those affected by PH.

This brief report provides a snapshot of how it went. If you have any questions, please do get in touch - we'd love to hear from you.

See you at PVRI 2026 Dublin - if not sooner!

**Karen Osborn**

PVRI CEO

## A GLOBAL REACH

**373** Delegates from

**25** countries & **5** continents

- Austria
- Belgium
- Bolivia
- Brasil
- Canada
- Chile
- Germany

- Japan
- Latvia
- Mexico
- Mozambique
- Netherlands
- Romania
- Singapore
- South Africa
- Spain
- Sweden
- Switzerland
- Turkey
- UK
- USA

**50 / 50**

delegate gender split

**10**

Pharmaceutical & industry corporations attended

**97%** of delegates found the conference excellent or good for networking

*“ PVRI 2025 has given me the opportunity to learn the status of PVDs in other parts of the world - which is eye opening as I was not aware of how the disease is being diagnosed, screened or managed in many of the underdeveloped parts of the world. ”*

Sandeep Sahay

## IN OUR PRE-MEETINGS

**75** Talks were given

## IN OUR MAIN PROGRAMME
