

Global PH Consult Promotional Pack

Use this promotional pack to help share Global PH Consult with clinicians and clinical networks, with a focus on those in LMICs where possible, who may benefit from the service.

The pack includes ready-to-use materials including:

- Flyer – share by email, print for events, or circulate through clinical networks
- PowerPoint slide – add to meetings, webinars, and presentations
- Email template – send to colleagues or contacts who may be interested
- Social media template – post on your organisation’s channels or share with your network

Please use these materials to encourage clinicians to submit complex PH cases for expert discussion.

Flyer

A printable flyer with a QR code that clinicians can scan to submit a complex PH case.

Subject line: Have you heard about Global PH Consult?

Hi [Firstname],

I wanted to share Global PH Consult with you.

It's a new online service from PVRI's Access to Care Workstream for PH clinicians who are managing complex PH cases, those in LMICs are particularly encouraged.

You can submit a current or past case where wider discussion would be useful. If selected, you'll be invited to join a live webinar discussion with a PH panel matched to the case.

The discussion will also be added to a case study library to support shared learning across the global PH community.

Thought it might be useful for you or someone in your network. You can submit your case or find out more here: pvrinstitute.org/global-ph-consult

All the best,
[Your name]
